

## **17/01/25 Home Learning Class F**

This week, Class F have been thinking about birds because of the Big School/Garden birdwatch. They have been outside with tick lists and been very quiet hoping to catch sight of birds. We have learnt the names and thought about what these birds look like. The children haven't been that successful in seeing many birds in our outside area, so this would be a lovely activity to do at home. Check out the RSPB website for more information.

We have also been doing more learning about Space and in the coming days will write our own ideas for a story based on the book 'Whatever Next!' thinking about who, what, where and why.

### **Home Learning**

**Projects: Please choose one (or more!) of the following options to complete over half term.**

1. Our learning this half term is around the topic of Space. We have been singing 5 Little Men in a Flying Saucer. You can find a lovely, animated version of this on BBC Teach which you could share with your child along with other songs such as Twinkle, Twinkle, Little Star.
2. Go outside with your child when it is dark and look at the sky. Discuss what you can see. Can you count any stars? Can you see the moon? The children could draw a picture showing what they saw to share with the class.
3. Make a rocket out of junk modelling materials e.g. plastic bottles, kitchen roll tubes, pringles tube etc. The children could bring this in to show the class.

### **Reading Reception only**

The children have a phonics book linked to their phonics learning. Please read with your child every day and record in their reading record book. Please ensure your child's book bag is brought into school every day so the adults in school can listen to them read.
