

15/11/24 Home Learning Class 2

This week in English we've focused on looking at the vocabulary from the book 'Ask Dr. K Fisher about Dinosaurs'. We discussed how to look up a word's definition by using the glossary, a dictionary and reading the next part of the sentence to try and make sense of a word. Class 2 then wrote their own quiz questions giving clues to the words that they had learnt.

In maths we've looked at using money and we've looked at using the inverse to check answers to a selection of questions.

Following on from the NSPCC assembly earlier in the week, Class 2 completed a follow up lesson. We discussed the characteristics of a safe adult and who our safe adults are. They then worked hard to create posters explaining to someone who they would call or what website they would look on if they needed help.

Home Learning

Projects:

Please choose two of the following options to complete over the second half of the Autumn Term. This will be due in Friday 20th December 2024.

1. Science: Create your own drawing or model of the ear. It must include the different parts that make up the ear and be coloured or painted. Write an explanation to go with your model or drawing to explain how the ear works.
2. RE: We have learnt about the story of Noah and will be learning about the story of Adam and Eve in the next couple of weeks. Create your own story board for one of the above to retell each section of the story.
3. History 1: We have studied the Stone Age in Britain during which time people used wood, wool and bone amongst other materials to make jewellery. Research Stone Age jewellery then design and make your own. Make sure you are able to share a few facts about stone age jewellery.
4. History option 2: We will be studying the Bronze Age and moving into the Iron Age between now and Christmas. Research Iron Age hill forts and make a model. You could make one home or even a whole settlement! Make sure that you can share a few facts about the house/settlement and its features.
5. Art: Christmas is fast approaching so it would be lovely to have some beautiful wintery scenes around the classroom. Create a winter scene using media of your choice; paint, pencil, pastel or collage for example. Make sure you are able to talk about how you created your art and why you made the style/colour choices.

Reading

We expect the children to read 5 times a week – you can read to an adult (as it is always good to read aloud to practise your expression) or talk to your adult about what you have read.

Spelling

Below are spellings linked to No Nonsense spelling. Spellings will not be tested in isolation. We will be looking at whether the children are using them accurately in their writing.

Maths

My Maths home learning this week focusses on estimating and using the inverse. Please could they also remember to log in TT Rock stars and practice the assigned times tables (again the login details can be found in their reading diaries).
