

22/11/24 Home Learning Class 3

We will be continuing to look this term at the Tudors and move on to the threat of the Spanish Armada and the results of that conflict. In our maths we have started expanding our learning to consider the importance of fractions decimals and percentages. In our English we have started working on the book Flotsam and writing imaginative narratives using ambitious vocabulary choices.

Home Learning

Projects:

Please choose one of the following options to complete over the second half of the Autumn Term. This will be due in Thursday 19th December 2024.

1. ICT: look around your house for a problem which AI may solve. Design a creation which could solve this problem using AI. This could either be a written description or an annotated diagram.
2. History: We are learning about the Tudors. Pick any of the main players of the Spanish Armada and create a fact file on them.
3. Science: Create a perfect parachute for an egg. Egg dropped from the highest height undamaged will receive 15 credits. No boiled eggs allowed. Video or photo submissions accepted.
4. RE: Create a presentation on the Christmas periods around the world. This can be on paper or online.
5. Create a book review on a book of your choice.

You can have double credit for any of these by your parents signing a note to say you have completed this completely independent of them and that they have not had to have any input in it.

Reading

We expect the children to read 5 times a week – you can read to an adult (as it is always good to read aloud to practise your expression) or talk to your adult about what you have read.

Spelling

Below are spellings linked to their age group. They will not be tested in isolation. We will be looking at whether the children are using them accurately in their writing.

<u>ready</u>	<u>steady</u>	<u>go</u>	<u>challenge</u>
develop	average	communicate	environment
equip	category	competition	programme
forty	equipment	environment	interrupt
muscle	familiar	excellent	physical
