

18/10/24 Home Learning Class 2

Class 2 have been working hard on using inverted commas in English to show when a person is speaking. We've continued to base our work on the story 'Grendel, a Cautionary Tale about Chocolate'.

In science yesterday, we worked hard to work out what happens to a sound as we move further away from a sound source. We discussed how to test out the theory and wrote the up experiment to explain what we did.

In RE we learnt about the Navaratri festival and had a go at making some Dandiya sticks which are used in a traditional dance.

Home Learning

Projects:

Please choose one of the following options to complete over the first half of the Autumn Term. This will be due in by Friday 25th October 2024.

1. Science: This term we are learning about sound in science. Create your own musical instrument. Your instrument must work, and it must play more than one sound.
2. RE: We are learning about what it means to be a Hindu in Britain today, part of this will focus on the Diwali Festival. For your project research Rangoli patterns. Design and plan your own Rangoli pattern and create it on a large scale.
3. History 1: Write a diary entry as if you are a stone age child, describing what you did in your day including the clothes you wore and the food you ate.
4. History 2: Create a collage, model or painting of a stone age village (and be able to talk about each part).
5. English: we are focusing on story writing over the next few weeks. Plan and write your own adventure or mystery story using your best descriptive vocabulary and illustrate it.

Reading

We expect the children to read 5 times a week – you can read to an adult (as it is always good to read aloud to practise your expression) or talk to your adult about what you have read.

Spelling

Below are spellings linked to No Nonsense spelling. Spellings will not be tested in isolation. We will be looking at whether the children are using them accurately in their writing.

Maths

Well done to those children who logged on to MyMaths to complete the last task. This week the MyMaths based around either column addition for year 3 or rounding to 10 and 100 for year 4. These are both topics we have just finished. This task can be found at <https://www.mymaths.co.uk/> the children all have details of how to log in in their reading diaries. Any problems - please ask Miss Rushworth or Mrs Symons.

Please could they also remember to log in TT Rock stars and practice the assigned times tables (again the login details can be found in their reading diaries).
