

Class 1 Home learning 6.3.24

So far, this week continued their fantastic work on multiplication and also the story of Emily Brown. The children have also taken part in some World book day activities. On Monday, all classes joined in on an online writing workshop with Michael Rosen where they explored the art of story writing. They have also become authors themselves, coming up with their own adventure story ideas and designing the book sleeve to match.

They are all very excited to be dressing up for World Book day and I am looking forward to hearing all about their favourite books and bedtime stories.

Year 1

Your child will be bringing home a book this week which they read with you and also during guided reading, the aim is that this book is read multiple times to practise their phonics and fluency. They can also bring home a picture book to share. Please aim to read with your child 3 times a week and sign their reading records.

Year 2. Your child now has an Accelerated reader book. They will keep this book and read it both at home and in 1-1 reading until they can read it fluently. They will also have guided reading sessions in class with Mrs Mitchell using an additional Accelerated reader book.

History:

Here is a bit of fun and this home learning isn't due until 13th March.

Please make a model of either:

- The moon
- The moon and Neil Armstrong
- The space rocket that Neil took to the moon
- The Lunar Module which landed on the moon

This can take any form you want but (if possible) not too big, I would like to put everyone's on display in the classroom when they are complete.
