

Langtree EYFS Half Term Overview — Spring 2 2022

Number:

Nursery children will be understanding numbers 1-6 through counting, subitising (being able to see 3 and know it's 3 without needing to count them), recognising the numerals and representing number in different ways (pictures, objects, drawings etc).

Reception will be introducing the concept of zero, composition and comparing numbers to 10. We will be combining two groups and exploring number bonds to 10 (5 and 5 makes 10, 2 and 8 makes 10 etc).

Writing:

Nursery children will be learning early writing skills such as pre-writing shapes by mark making and begin to be able to write some letters correctly such as the ones in their name.

Reception will begin to come up with their own sentences and write them for a purpose.

Reading:

Nursery children will be learning to hear and know the initial sounds in words. They will engage in extended conversations about stories, learning new vocabulary. They will be exploring rhythm and rhyme.

Reception children will be finalising and then revising all Phase 3 sounds j, v, w, x, y, z, qu, ch, sh, th, ng, ai, ee, igh, oa, oo, ar, or, ur, ow, oi, ear, air, ure and er.

They will be learning to read short sentences containing these sounds and tricky words (words that are not decodable and have to be learnt by sight).

Come Outside!

Expressive Arts and Design:

We will be learning about the artist Monet and creating our own version of season trees in the impressionism style.

We will be cooking and decorating our own flower biscuits.

We will be making our own Easter gardens.

PSED

We are following the JIGSAW programme and will be looking at 'Healthy Me' this term. This module looks at being and keeping safe and healthy.

Physical Development

This term the children will be focusing on ball skills: aiming, dribbling, pushing, throwing and catching. PE lessons take place on **Friday mornings**.

Outdoor learning sessions take place on a **Friday afternoon** with Mrs Heard in the school garden.

Communication and Language:

The children extend their vocabulary through shared stories, adults modelling it to them in their play and discovering topic specific words. We also play regular listening and attention games to develop their listening skills.

Understanding the World:

We will be exploring changes in living things, plants and exploring the world around us to see how it changes as we enter Spring.

We will be learning how to use beebots and creating our own beebot map to navigate around.

We will be celebrating National Science Week and engaging in lots of exciting experiments!

Trips and visits:

We will be visiting DCC's mobile library on 17th March that visits Langtree Parish Hall Car Park and will be borrowing a book.

Reception will be visiting the Church to see Rev Martin Warren to find out why Christians make Easter gardens.

We are hoping to go on a Welly Walk to see what we can find in our local area and explore changes that Spring can bring.
